Hydrobiologia

The International Journal of Aquatic Sciences

Volume 539, 1 May 2005

Primary Research Papers

Degradation of surface-water dissolved organic matter: influences of DOM chemical characteristics and microbial populations
K.C. Young, K.M. Docherty, P.A. Maurice, S.D. Bridgham 1–11

Population dynamics of alien gammarid species in the River Odra estuary
B. Wawrzyniak-Wydrowska, P. Gruszka 13–25

Bacteria biofilm encourages algal immigration onto substrata in lotic systems
Y. Hodoki 27–34

The trophic state 'chain of relationships' in ponds: does size matter?
G.W. Fairchild, J.N. Anderson, D.J. Velinsky 35–46

Invertebrate drift along a longitudinal gradient in a Neotropical stream in Serra do Cipó National Park, Brazil
M. Callisto, M. Goulart 47–56

Effects of electroshocking on macroinvertebrate drift in three cold water streams
L.M. Kruzic, D.L. Scarnecchia, B.B. Roper 57–67

The influence of biomanipulation on fish community development in a southeastern United States cooling reservoir
M.H. Paller 69–81

Spatial and temporal distribution of virioplankton and bacterioplankton in a Brackish Environment (Lake of Ganzirri, Italy)
S. Vanucci, V. Bruni, G. Pulicanò 83–92

Processing of leaf matter by lake-dwelling shredders at low oxygen concentrations
U. Bjelke 93–98

Stable carbon isotope ratios for the gray whale (*Eschrichtius robustus*) in the breeding grounds of Baja California Sur, Mexico
J. Caraveo-Patiño, L.A. Soto 99–107

Acclimation of a dominant mangrove plant (*Kandelia candel*) to soil texture and its response to canopy shade
Y. Ye, Y.S. Wong, N.F.Y. Tam 109–119

Characterizing macroinvertebrate assemblage structure in relation to stream size and tributary position
J. Heino, J. Parviainen, R. Paavola, M. Jehle, P. Louhi, T. Muotka 121–130

Reproductive phenology in *Megalonaias nervosa* (Bivalvia: Unionidae) in Wheeler Reservoir, Tennessee River, Alabama, USA
T.M. Haggerty, J.T. Garner, R.L. Rogers 131–136

Habitat characteristics and the distribution of Odonata in a lowland river catchment in eastern England
T.A. Hofmann, C.F. Mason 137–147

Infection characteristics of a trematode in an estuarine isopod: influence of substratum
S.M. Ferreira, K.T. Jensen, M.A. Pardal 149–155

Short Research Notes

Recovery of the seagrass *Zostera marina* in a disturbed Mediterranean lagoon (Etang de Berre, Bouches-du-Rhône, Southern France)
G. Bernard, P. Bonhomme, C.F. Boudouresque 157–161

Spatial and temporal distribution of coho salmon carcasses in a stream in the Pacific Northwest, USA
N. Minakawa, R.I. Gara 163–166

ROLE OF WATER-LEVEL FLUCTUATIONS IN LAKES AND WETLANDS

Introduction 169

Primary Research Papers

Water-level fluctuations in North American prairie wetlands
A.G. van der Valk 171–188

Ecosystem response to changes in water level of Lake Ontario marshes: lessons from the restoration of Cootes Paradise Marsh
P. Chow-Fraser 189–204

Historical changes in herbaceous wetland distribution induced by hydrological conditions in Lake Saint-Pierre (St. Lawrence River, Quebec, Canada)
C. Hudon, P. Gagnon, J.-P. Amyot, G. Létourneau, M. Jean, C. Plante, D. Rioux, M. Deschênes 205–224

Aquatic vegetation and largemouth bass population responses to water-level variations in Lake Okeechobee, Florida (USA)
K.E. Havens, D. Fox, S. Gornak, C. Hanlon 225–237

Water-level fluctuations affect macrophyte richness in floodplain lakes
G.J. Van Geest, H. Wolters, F.C.J.M. Roozen, H. Coops, R.M.M. Roijackers, A.D. Buijse, M. Scheffer 239–248
